

eTEK System Requirements

Subject to Change ... Please call 800-888-6894 To Confirm

Desktop Systems:

- Intel-based PC (or compatible, e.g. Athlon) with at least 1 GHz, or faster x86 processor (dual CPU not required, but may be desirable)
- 2 GB RAM or better
- CD-ROM Drive
- Hard disk with a minimum of 5 GB free space.
- Microsoft Mouse or other compatible pointing device.
- SVGA or compatible display monitor (17" suggested) set to at least 1024 x 576 or better resolution (this is required for Microsoft Office 2010/2013).
- Good Quality Laser or ink Jet Printer
- Microsoft Windows Vista or Windows 7 or 8 desktop operating system.
- Microsoft Office Pro 2010/2013 with Microsoft Access 2010/2013 with ALL Microsoft Office Service Packs installed
- Office network: Windows Server 2008 or 2012 with high speed network interface card
- Access to the Internet
- Sound card with speakers (suggested for multi-media CD tutorials)
- UPS battery backup (suggested)

Server (applicable for networked/SQL Server/multi-user versions)

- Intel-based Microsoft Server 2008 or better
- For all SQL-Server-based systems: Microsoft SQL Server 2008 or better
- Suggest 4.0 GHz or better (dual CPU not required, but may be desirable for future)
- 4 GB RAM
- At least 10 gigs free hard drive space
- Appropriate high speed network interface card for your LAN/WAN
- Optional: CDRW (or Tape Backup)
- UPS battery backup - required.
