

eTEK Accounting Systems (Including eTEK Fundamentals)

Top 5 Benefits per eTEK Customers ... With links to illustrative web videos

1. Quality Affordable Software

While eTEK software consistently earns top ratings from CPAs, the key benefit is VALUE. Experts confirm users get "more for less" with eTEK. Starting price points typically run 50% less than "brand-name" competitors, yet key features are comparable or better. PLUS, eTEK systems are easier to implement & use, and have more flexibility due to eTEK's exclusive "open database" architecture. [Click here](#) for an executive overview of eTEK. [Click here](#) for a video highlighting eTEK's latest version for Microsoft Office 2010. You will like what you see!

2. Superior Tech Support

Many eTEK customers have been using eTEK systems for over 25 years! They readily confirm their satisfaction with the quality of eTEK support. More importantly, you are offered an easy way to form your own opinion. During a FREE *GoToMeeting*™ web demo/informal Q&A session, you will be able to evaluate the level of knowledge, skills and expertise available to your organization. Your meeting will be conducted by the head of eTEK's customer support team, a professional full-time employee of eTEK (not a third-party sales rep or consultant).

3. Easy-to-use

eTEK systems run on all popular versions of Microsoft Windows (including XP, Vista & Windows 7) as well as current versions of Microsoft Office. eTEK's user interface and overall design provides an easy-to-navigate framework fully compatible with Microsoft Office. [Click here](#) for a video highlighting eTEK's latest version.

4. Flexible

eTEK systems are based on an open, non-proprietary, relational database architecture; combined with 100% user-defined GL account numbering structures. You can easily use eTEK for multiple divisions/departments in your organization at no extra cost. Unlike QuickBooks® and others, there are no practical limits on the number of customers, suppliers, and other records. Report Wizards are built-in. 5. Scalable

Starting as small as a single desktop, you can grow as large as desired with eTEK *with no need to re-train users*, or convert to some "other brand" as your business grows. You can start with a single-user system, then move up to eTEK for Microsoft SQL Server (SQL is capable of supporting thousands of concurrent users). **What is the long-term benefit to your organization of NOT out-growing your accounting & business management software?**

A+ Rated

eTEK is an A+ rated member of the Better Business Bureau

with many years of Gold Star Awards for NO customer complaints!
