

# eTEK Accounting & Business Management Systems

Available as *software as a service (SaaS)* or traditional licenses

*Top 5 Benefits ... With direct links to illustrative web videos*

## 1. Quality Affordable Software

eTEK software has consistently earned 5-STAR-ratings from independent CPA's who specialize in evaluating business software. Product reviews of eTEK have been conducted by CPA's who have actually installed and run eTEK's systems (\*see note below). [Click here](#) to read/print recent product reviews. [Click here](#) for 20-min executive overview by the President/CEO of eTEK. [Click here](#) to better understand what SaaS means.

## 2. Superior Tech Support

We have many customers who have been using eTEK systems for close to 30 years! More importantly, we provide you with an easy way to form your own opinions about our training and support. During a FREE *GoToMeeting™* web session, you will be able to quickly access the level of knowledge, skills and expertise available to your organization. Your meeting will be conducted by the head of our customer support team, a professional full-time employee of eTEK (not a third-party sales rep/consultant). [Click here](#) to read references.

## 3. Easy-to-use

All eTEK systems run exceptionally well on all popular versions of Microsoft Windows (including Windows Vista) as well as all modern versions of Microsoft Office. eTEK's user interface and overall design provides an easy-to-navigate framework compatible with all versions of Microsoft Office, including Microsoft Office 2007. [Click here](#) for visual overview. [Click here](#) to choose screen shots, features & sample reports of likely greatest interest.

## 4. Flexible

eTEK systems are based on an open, non-proprietary, relational database architecture; combined with 100% user-defined GL account numbering structures. You can easily use eTEK for multiple divisions/departments in your organization at no extra cost. Unlike QuickBooks® and others, there are no practical limits on the number of customers, suppliers, and other records. Report Wizards are built-in. [Click here](#) for more on flexibility.

## 5. Scalable

Starting as small as a single desktop, you can grow as large as desired with eTEK *with no need to re-train users*, or convert to some "other brand" as your business grows. You can start with a small PC-based eTEK SaaS system, then move up to eTEK for Microsoft SQL Server (SQL is capable of supporting thousands of concurrent users; to view Microsoft's SQL Server performance data [click here](#)). **What is the long-term benefit to your organization of not out-growing your accounting & business management software?** <<<< *This is one of the major reasons eTEK has become such a popular choice for growing small/mid-sized business organizations!*

\* A word of caution: there are a number of web sites that purport to evaluate and review accounting software. Please make sure they have indeed 1) installed and run the current versions of software you are considering, and 2) have the technical expertise of a state-certified CPA; most have not.
